BSides Manchester

Hello and welcome to the 7th BSides Manchester event. We have gone from strength to strength and we were thrilled to have had over 600 people attend our 2019 event. 2020 presents us the opportunity to continue to bring the InfoSec community in Manchester together again and we cannot do that without the help and support of our sponsors.

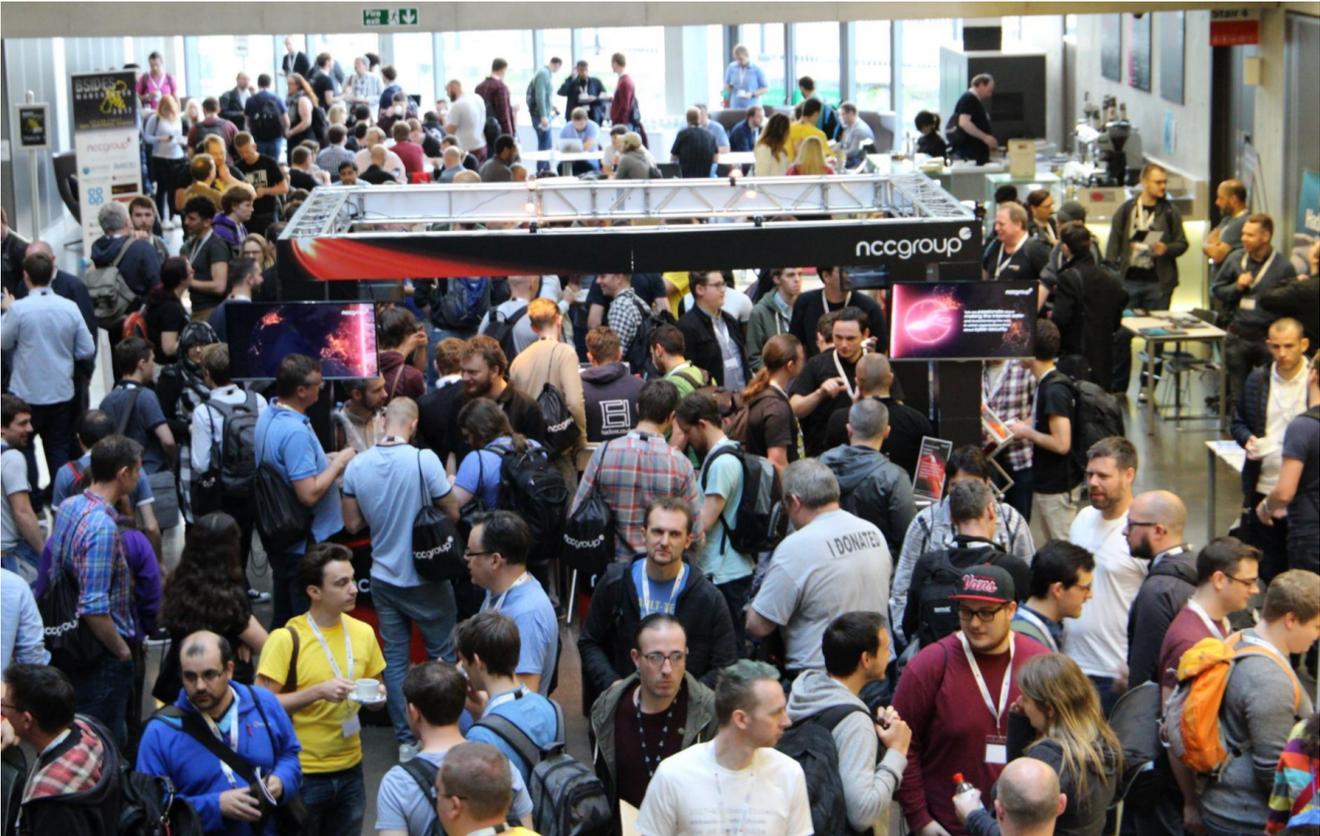

Thank you for your interest in sponsorship; with your help we will build a legacy for BSides in the UK.

For those of you who have never attended a BSides event, BSides is a platform for security professionals across the globe to share and grow their expertise with like-minded peers. The security community is a large global network of very close individuals who love nothing better than to come together over a drink, some food and a workshop or two.

This document details all the levels of the sponsorship available so you can get involved at whatever level you want to. Please get in touch if you require any further information or to book your place at the biggest infosec event in the North of England.

You can contact us at info@BSidesmcr.org.uk and follow us on Twitter [@BSidesMCR](https://twitter.com/BSidesMCR) for updates.

- Mention in the official BSides Manchester Conference Programme

Coffee break Sponsors - ENQUIRE

- Signage in the coffee area
- Verbal recognition - Company name mentioned before and after breaks
- Website – Logo listed as Break Sponsor
- Mention in the official BSides Manchester Conference Programme

Community Supporter

BSides Manchester is for the community by the community, and whilst we need our main sponsors to make it all happen through financial support we are also interested in engaging the wider information security community.

Therefore, if your organisation, group, club, society, academia, etc. is non-commercial and involved in the InfoSec, cyber security, hacker space, coding space, or just geek space, then we would be interested in hearing from you and getting you involved.

We don't want your money, but we do want your support and if you have anything you can donate to the event, such as; tickets for other events/cons, stickers, give aways, leaflet detailing your cause or group, printing, badge holders, etc. Feel free to email info@bsidesmcr.org.uk and we will add your logo to the website and signage as a community supporter of the event.

History of BSides

Security BSides started out with an idea to create free, community-organised events put on by local individuals with the express goal of enabling a platform for information dissemination. Started in 2009 by a team in the US, Security BSides events are becoming known all over the world.

In 2011, the event came to London with big ambitions. BSides London has continued to grow, introduced Rookie Tracks, moved venues and become one of the leading InfoSec conferences in the UK.

In 2014, a Manchester team was set up, including one of the original Security BSides London team, to bring BSides to the north of the UK! The core BSides Manchester team is returning again for 2020, along with some new team members, to bring the InfoSec community in the North West an annual security get together to remember for years to come.

Who Attends BSides Events

Security BSides events are free so enjoy a wide range of visitors from information security professionals and executives to students and security enthusiasts. More information around our attendee demographics can be found in the “Who is attending BSides Manchester?” section.

We are expecting over 500 delegates to attend the conference and tickets will sell out fast probably within a matter of hours.

The Event

On the 20th August 2020, BSides Manchester (BSidesMCR) will take place at the Business School, All Saints Campus, Manchester Metropolitan University. The state of the art venue is only a few years old and is a great location for the conference. It allows us to have more tracks and workshops on the agenda, as well as a great space for exhibitors.

The venue is ideally located; a 5 minute walk from Manchester Oxford Road station (MCO) and 10 minutes from Manchester Piccadilly (MAN) station.

Delegates will be provided with lunch, and refreshments throughout the day.

As a sponsor, you will have opportunity to setup a stand in the main hall space, chat with delegates, distribute your company's promotional materials and have items on show for delegates to learn about you and your business.

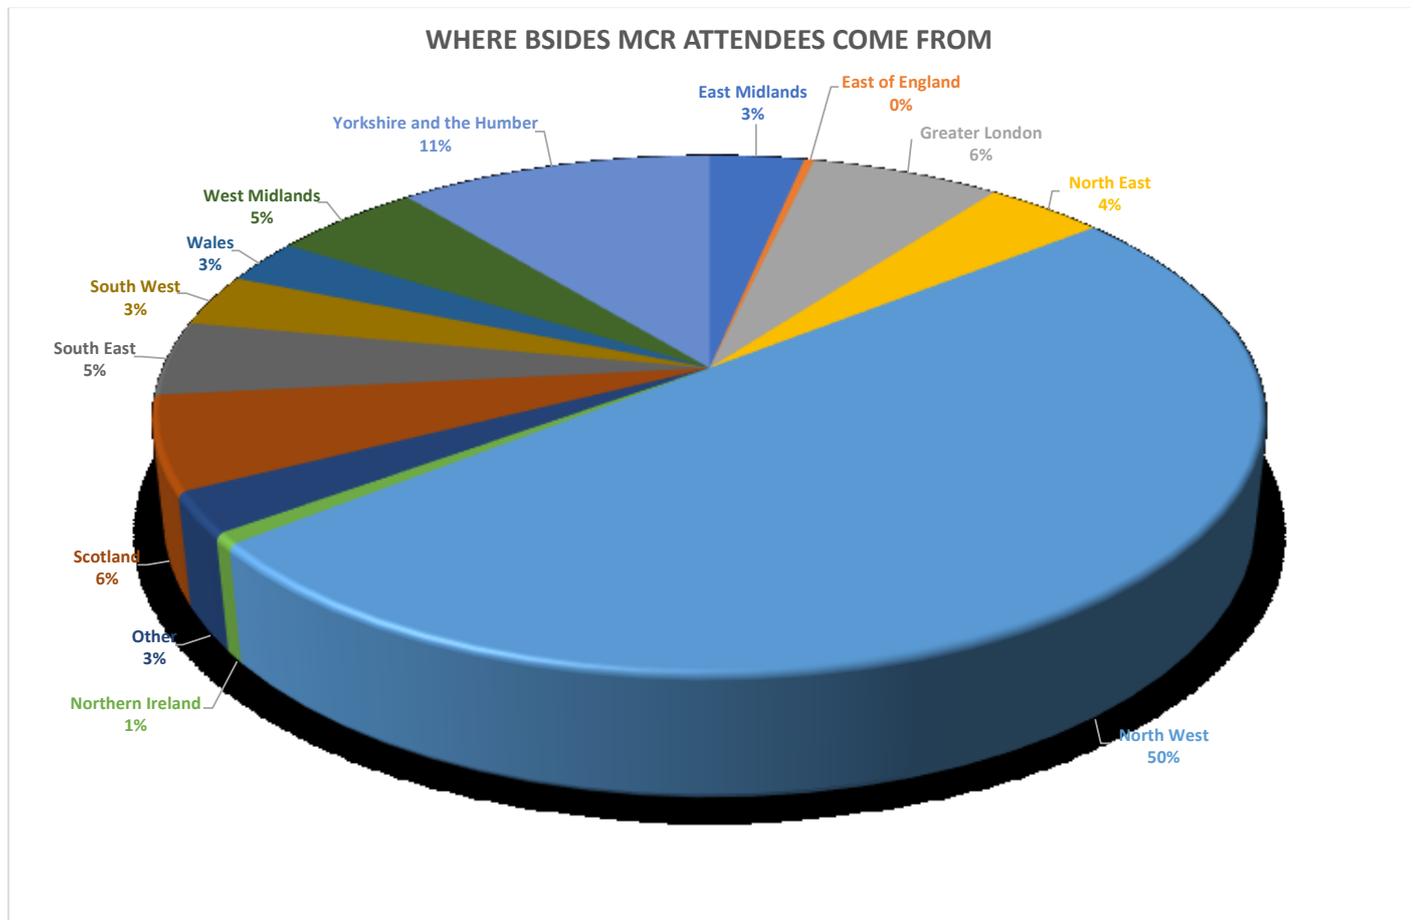

Who is attending BSides Manchester?

Where do BSides Manchester attendees come from?

The majority of BSides Manchester attendees come from the UK. Only a very small percentage came to BSides Manchester from outside the UK.

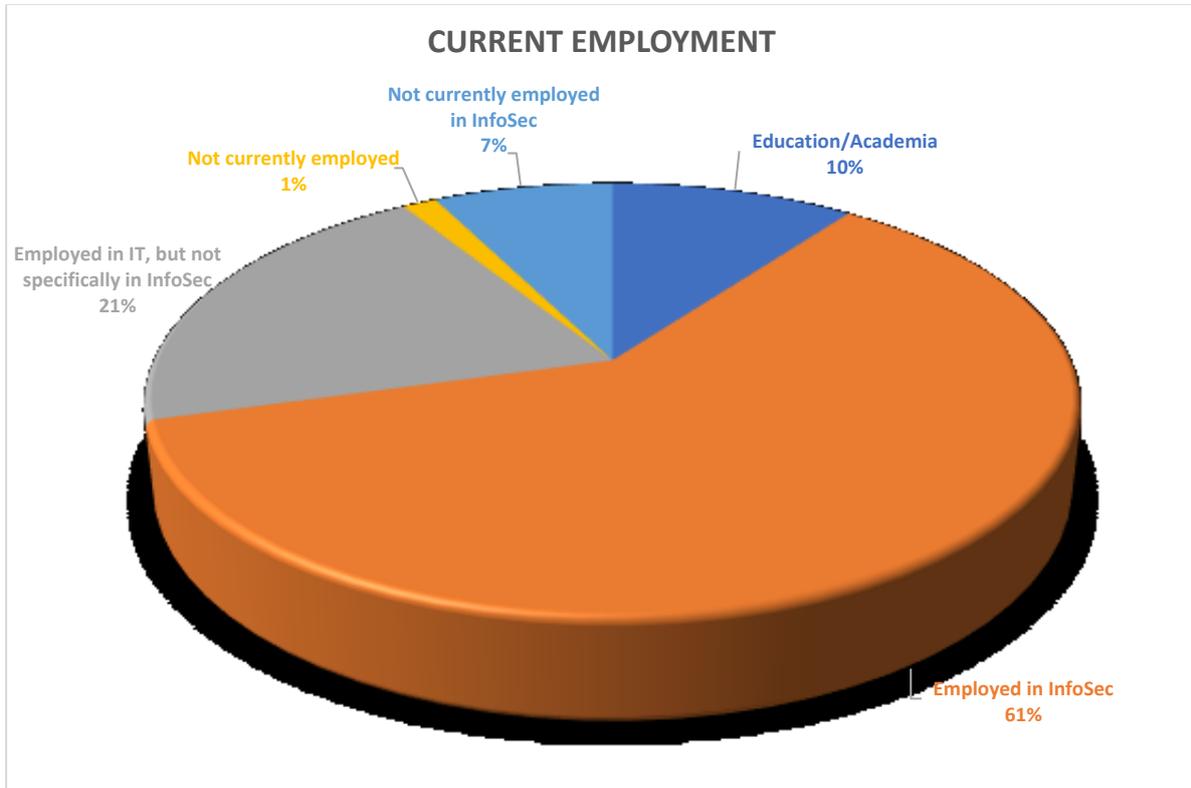

Where in the UK?

Unsurprisingly a large proportion come from the North West and then nearby Yorkshire & Humberside. After these two areas, the attendees are fairly evenly split across the rest of the UK.

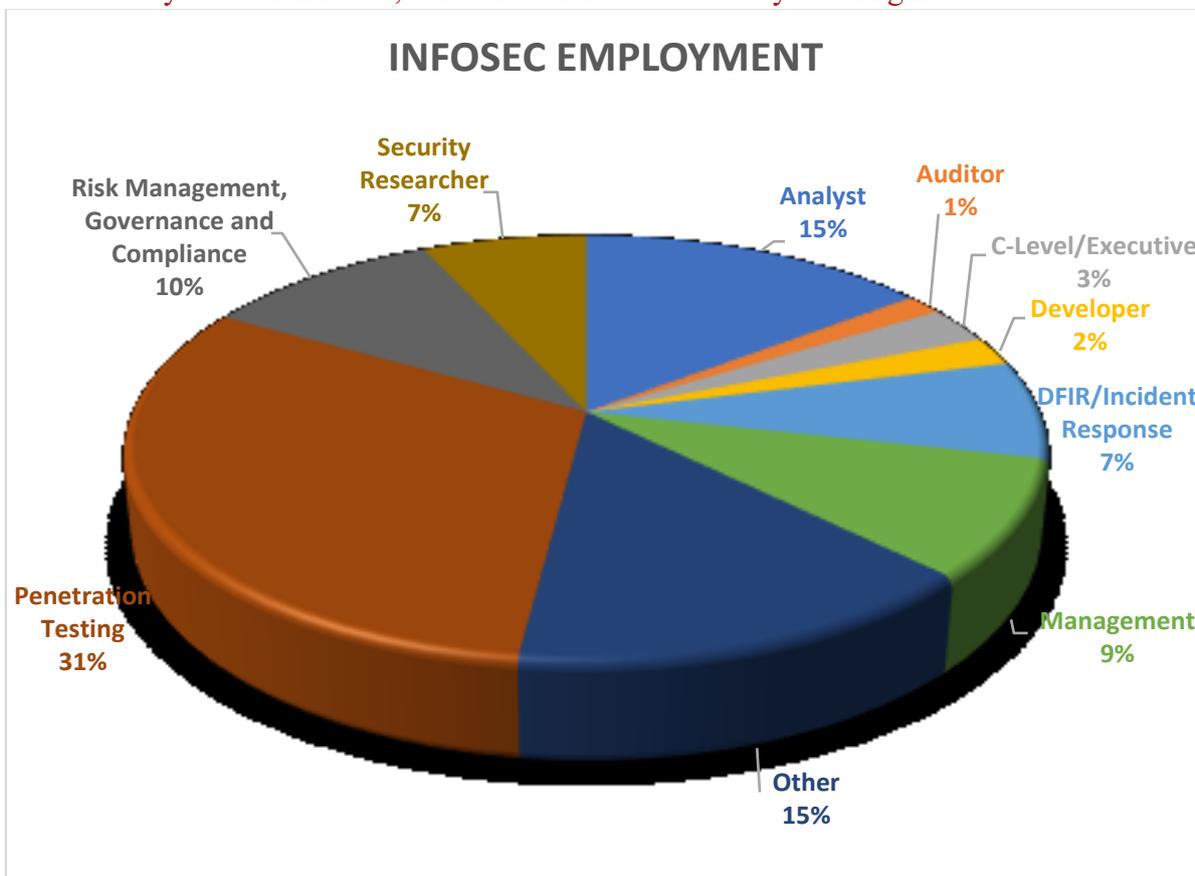

What type of employment are BSides Manchester attendees in?

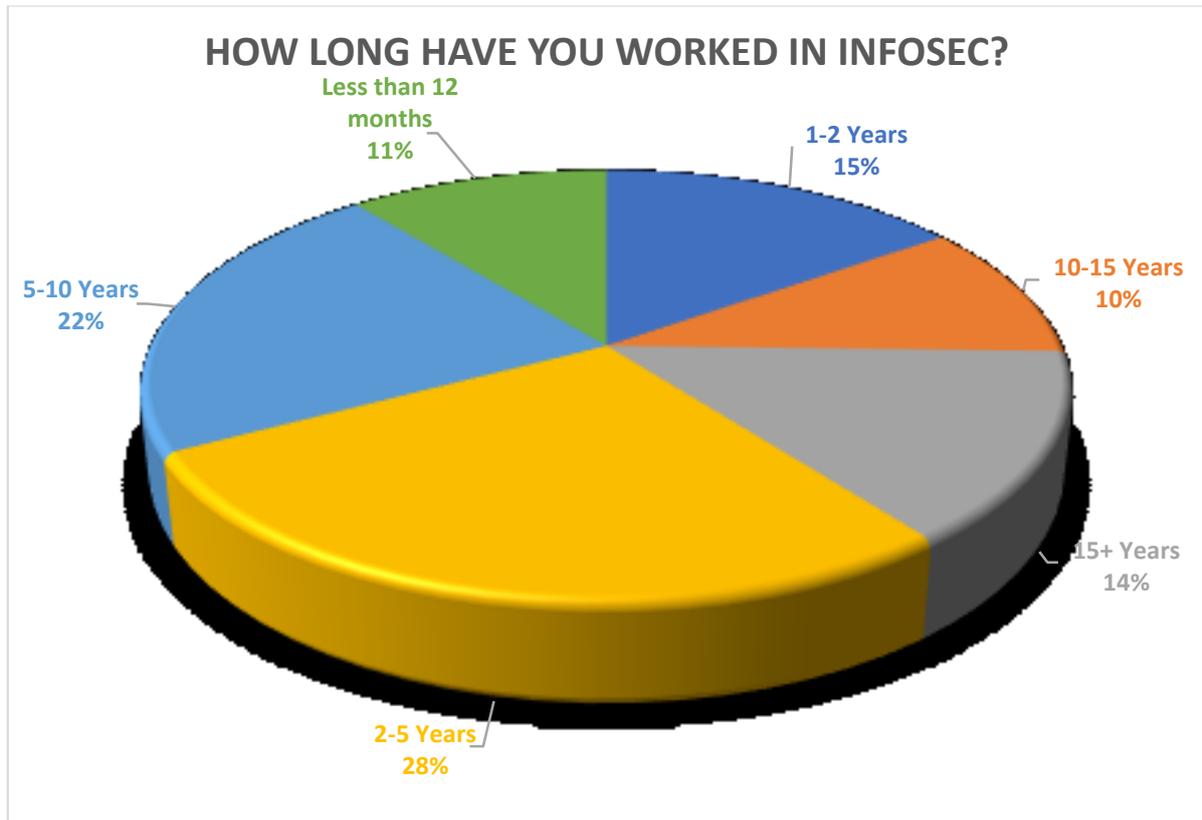

The majority of BSides Manchester attendees are already working in InfoSec, the remainder working largely in IT or are in academia or education.

So those who already work in InfoSec, what area of InfoSec are they working in?

How long have BSides Manchester attendees been working in InfoSec?

Finally, some basic stats:

The average age of attendees was 32 years old, with 15% identifying themselves as female and 83% identifying themselves as male. Approximately 22% of the attendees have never attended an InfoSec conference before.

Thanks for supporting BSides Manchester!
